## Pengalaman Kerja

**Tel-u X LG CNS** - Kampus Telkom University Bandung                    2024 - 2024
Software Engineer Trainee

A bootcamp program held in collaboration between Telkom University (Tel-U) and LG CNS Indonesia. The program, scheduled from July to August 2024, focuses on enhancing relevant soft skills for the workplace, testing resilience and consistency, and offering opportunities for recruitment by multinational companies. Successful participants may receive stipends and have the bootcamp incorporated into academic credits or assessments. The bootcamp includes training in Oracle, Java, SQL Server, and C#, with a mix of online and offline sessions covering theory, practical exercises, and missions. It consists of multiple chapters, subjects, practices, and missions, with a final mission to review learning outcomes.
